Dear Recruiter,

I hope this message finds you well.

I am writing to express my interest in exploring opportunities within your organization that align with my skills and experience, whether in IT or industry operations. I recently relocated to London, Ontario, and am eager to establish myself and contribute to the local workforce. I am seeking an opportunity to develop myself professionally and support my family, and I am open to roles where I can contribute, grow, and demonstrate my skills.

With a background in IT, data analysis, software development, and electrical engineering, I bring diverse skills that can be valuable across different areas. My experience working as an Electrical Quality Engineer, Software Developer, and IT Support Specialist has helped me develop a robust technical foundation and a problem-solving mindset. I am also certified in Lean Six Sigma, which has provided me with tools for continuous improvement and efficiency.

I am committed to building a career here in Canada and am motivated to work hard in any capacity to prove my skills and provide for my family. I would greatly appreciate the opportunity to discuss how I can contribute to your team, even if starting in an entry-level or operational role.

Thank you for considering my application. I am available for an interview at your convenience and would be happy to provide any additional information you may require.

Best regards,

Francisco Ricardo Andraschko
